

WHY OBTAIN YOUR BUSINESS TRAINING AT EAST CENTRAL JUNIOR COLLEGE?

There are a great number of advantages in securing your training in Business at East Central Junior College. Check these advantages. Why pay more? Why settle for less?

1. **A COMPLETE BUSINESS COURSE:** You can take a complete course in Business equivalent to any program in any Business College.
2. **LOW COST:** The cost of the training will be only from one third to one half of the cost in most schools.
3. **QUALIFIED TEACHER:** You will have fully qualified teachers who will give you both class instruction and individual attention.
4. **COLLEGE CREDIT ACCEPTED ANYWHERE:** YOUR COURSES WILL BE FULLY ACCREDITED AND COLLEGE CREDIT HERE IS ACCEPTABLE ANYWHERE YOU MIGHT WISH TO ATTEND COLLEGE FURTHER.
5. **COLLEGE CAMPUS LIFE:** You will have the advantage of life on a college campus with all of its social and extra curricular activities.
6. **CHOICE OF PROGRAMS:** You may take only commercial courses, obtaining a certificate in from nine to twelve months, or you may take two full years of work here and obtain a degree in Secretarial Science or Business Administration.
7. **BACHELORS DEGREE PROGRAM IF DESIRED:** You can take two years of work here which will qualify you for graduation at a senior college with a Bachelors Degree in two more years.
8. **EMPLOYMENT OPPORTUNITIES:** The college keeps in contact with business organizations through the placement office here. More trained secretaries, typists, and office workers are needed to supply the demand and to fill the calls and inquiries from business and industry.
9. **FINANCIAL AID:** Financial assistance is available in the form of student jobs, and scholarships to a limited number.
10. **WHY NOT GET THE BEST FOR LESS?**

EAST CENTRAL JUNIOR COLLEGE

Department of **BUSINESS EDUCATION**

You Need To Know The Opportunities For
BUSINESS TRAINING
AT YOUR COLLEGE

BUSINESS STAFF

J. WALLACE BEDWELL CHARLES PENNINGTON
MRS. JESSIE MAE EVERETT

DO YOU WANT TO BE

A Secretary, Typist, Office Clerk, Bookkeeper, Stenographer, Accountant, Office Manager or to hold one of the executive positions in Banking, Marketing, Retailing, Office Management, or other field of Business Administration. You can train here for any of the positions listed above.

PROGRAMS OFFERED IN BUSINESS EDUCATION

If you are interested in a business course, you should know that we offer as good training in business as you would find anywhere in the State. Our courses carry full college credit, which is recognized throughout the United States. You may take the program and courses of your choice.

ONE-YEAR COURSE: This course may be completed within 9 or 12 months depending upon previous high school training. A certificate is awarded upon completion of the course. You would take courses such as Shorthand, Typewriting, Accounting, Office Machines, Filing, Business English, and Secretarial Office Practice. Upon completion of this program you are qualified for immediate employment.

TWO-YEAR COURSE — SHORTHAND: With the completion of this program, which includes two years of Shorthand, the other Business courses listed above, and related subjects, a college diploma is awarded each graduate in the field of Secretarial Science.

TWO-YEAR COURSE — ACCOUNTING OR BUSINESS ADMINISTRATION: With the completion of this program, which includes two years of accounting and related subjects, a college diploma is awarded each graduate. You are qualified for a job or to pursue further training in the Business field at a senior college.

COMMERCIAL TEACHER: We offer two years of business training for those who plan to continue their study at some senior college in preparation to become a commercial teacher. We award a college diploma to those who complete our program here.

COST

EXPENSES FOR REGULAR SESSION:

| | |
|---------------------------|----------|
| All Fees, per semester | \$ 25.00 |
| Room and Board, per month | 30.00 |
| Total, per 9 months term | \$320.00 |

EXPENSES FOR SUMMER SESSION:

| | |
|---------------------------------|----------|
| All Fees, per 5 week term | \$ 22.50 |
| Room and Board, per 5 week term | \$ 37.50 |
| Total, per 5 week term | \$ 60.00 |
| Or for 10 week Summer Session | \$120.00 |

FINANCIAL AID

Self help jobs are provided for worthy and needy boys and girls to go to school. Applications may be made to the Business Manager.

DORMITORY AND SOCIAL LIFE

Life at East Central Junior College is ideal. The dormitory living quarters for both boys and girls are set up on a homelike basis, the friendly spirit prevails, and fair play is the rule. New dormitories for both boys and girls are now in construction.

There is a wide range of campus activities. You are privileged to participate in those of your choice.

EMPLOYMENT OPPORTUNITIES

An organized placement service is maintained at the school. The demand for junior college trained people in the Business field is much greater than the supply. Our contacts with employers are extensive. You can feel assured of a job.

EAST CENTRAL JUNIOR COLLEGE

*Laboratory included — meets 12:15 P. M. - 2:45 P. M.

VOCATIONAL: Vocational courses in Auto Body and Fender Repair 140, Section 275; Auto Mechanics 130, Section 265; and Electricity 170, Section 285 are full time courses meeting from 8:00 a.m. - 2:45 p.m. with one hour lunch period for the full ten week term.

A student may carry two courses and earn six semester hours credit each five weeks. All above courses, except laboratory courses, will meet two hours per day, five days per week. The school reserves the right to discontinue any course when the enrollment is insufficient. For a description of courses see the bulletin for the regular session. Other courses listed in our general college bulletin will be offered if ten or more people enroll for it.

EXPENSES FOR SUMMER SESSION

First Five Week Term

| | |
|--------------------|---------|
| Fees | \$30.00 |
| Room & Board | 56.25 |
| Total | \$86.25 |

Second Five Week Term

| | |
|--------------------|---------|
| Fees | \$30.00 |
| Room & Board | 56.25 |
| Total | \$86.25 |

TOTAL FOR TEN WEEK SUMMER SESSION \$174.50

All fees are payable in advance at the beginning of each term and are not refundable. Students living outside of the junior college district will pay a tuition fee of \$10 per term in addition to above.

To plan for Summer School:

1. Write B. J. Tucker, Dean of Academics, your plans including courses wanted.
2. Send \$1.00 for a room reservation if you plan to live in the dormitory.
3. Send application, three letters of recommendation from alumni and transcript of credits to Frank Rives, Registrar.

Job opportunities: A limited number of student jobs will be available allowing needy students to earn part of their expenses. Application forms are available on request from Denver Brackeen, Dean of Students.

Courses offered will apply in all the major fields of interest.

Employment Opportunities

An advisory committee of twenty-five Agricultural business men and vocational agricultural representatives met at East Central Junior College and planned the program of studies in a two-year terminal course. This curriculum, based on the needs in this area, is designed to prepare students to manage farms, to begin work in related businesses or industries, or to operate their own farms.

Employment opportunities include work in sales and service of farm equipment, manufacture and sales of fertilizer, pesticides, and other agricultural chemicals; feed manufacturing; the marketing and handling of farm products; and farm management.

About East Central

In 1928 the Legislature of the State of Mississippi adopted the first basic laws for the organization and operation of the Mississippi public junior colleges. East Central Junior College opened its doors to a freshman class of twenty students for the first regular session in September of 1928. The college occupied buildings that were a part of the Newton County Agricultural High School, which had been organized in 1914. The Agricultural High School was located on property belonging to the Decatur Municipal School District, which had been created in 1912. The upper high school grades which comprised the Newton County Agricultural High School were a part of the college until 1958 when they joined the Decatur Attendance Center.

In March of 1939, East Central Junior College became a member of The Southern Association of Colleges and Secondary Schools. It now holds membership in The American Association of Junior Colleges, The Southern Association of Colleges and Secondary Schools, The Mississippi College Association, and The Mississippi Junior College Association.

More than thirty different major buildings worth approximately \$2,000,000 have been added to the original three buildings. The latest additions include air conditioned library and science buildings.

Originally this institution was supported by three counties—Newton, Neshoba and Scott. Later these were joined by Leake and Winston. To supplement the original plant, Newton County provided \$90,000 in 1930. In 1933-37 \$110,000 was spent on the plant of which Newton County provided \$44,000. Over a million dollars provided by the state and five supporting counties has been spent on the plant since 1946-47.

A New Concept of Agriculture . .

As we look at today's agriculture and review the many changes which are taking place in regard to capital investment, size of operation, labor employed, technical knowledge and skill required, and management information needed, it becomes increasingly clear that agricultural curriculums must be developed which bring into existence new combinations of training in science, business, and technical and applied agriculture. Recent surveys in Mississippi indicate there is a big gap in employment between the high school graduate and the four-year college graduate. This gap is due to the lack of knowledge and experience in the high school graduate and the lack of technical and practical application in the 4 year professional program. To provide such training, the Agriculture Department at East Central Junior College has added a two-year terminal course in Farm Business Management.

Agriculture courses make up about 50% of the total program and will emphasize practical application of production and management theory. The school farm will furnish many of the facilities necessary for practical application and each student will be required to have satisfactory work experience.

High School Subjects

A college entrance course in high school with above-average grades in vocational agriculture, science, and commerce is a good preparation for this program. In the event some deficiencies occur, the student may be considered if his scholarship standing warrants it. The student must have a strong interest in this field and should possess the personal qualities necessary for the exacting demands and high standards in Agricultural Technology.

| Room and Board per month | 35.00 |

For all Mississippi students residing outside Leake, Neshoba, Newton, Scott, and Winston counties, there will be a charge of \$10.00 per month out-of-district tuition. For all out-of-state students there will be a charge of \$125.00 per semester out-of-state tuition. This fee is due at the beginning of each semester.

Medical Laboratory

As an essential part of the health services of the nation, young men and women are taking their places with other technical and professional personnel in hospitals, clinics, and research centers. The Medical Laboratory Technology program offers preparation in the skills and procedures relating to clinical laboratory work.

TWO YEAR PROGRAMS

Degree of Associate in Arts In:

Medical Laboratory Technology
Architectural Drafting Technology
Machine Design Technology
Civil Drafting Technology

MEDICAL LABORATORY TECHNOLOGY

East Central Junior College

Decatur, Mississippi

Kinds of Work

The duties of a Medical Laboratory Technologist are exacting and often varied in that the work consists of the performance of essential laboratory tests, the results of which are used in the diagnosis and treatment of disease.

The work involves the analysis of urine, blood, and other body fluids, the preparation of slides of tissues, and related procedures. Extensive training in laboratory technique is mandatory.

The Medical Laboratory Technologist will work under the supervision of a Clinical Pathologist or Registered Medical Technologist.

Employment Opportunities

Clinical laboratories are located in all of the hospitals in this area. There are also some private medical laboratories in this section. The opportunities for employment are excellent.

Some typical places where graduates of this program will be employed are as follows: hospital laboratories, research centers, medical service laboratories, and private physicians' laboratories.

Local hospitals have agreed to employ students in this program during the summer following the freshman year for experience and financial assistance.

Nature of the Program

The Medical Laboratory Technology curriculum includes courses in biology, anatomy, physiology, chemistry, serology, bacteriology, blood banking, materia medica, and clinical pathology. Several courses are included where active workers in the medical field are brought in for informal discussions and training sessions pertaining to the overall program. Actual experience and training in a hospital laboratory is required during the second year.

All students take a number of general education courses such as communications skills, human relations, health, psychology, economics, and sociology.

Emphasis is placed on the development of those personal characteristics and professional skills essential to the competent worker in the field of medical technical work.

An advisory committee of local physicians and technicians have assisted in the formation of the curriculum.

High School Subjects

A college entrance course in high school with above-average grades in mathematics, biology, and chemistry is a good preparation for this program. In the event some deficiencies in the science subjects occur, the student may be considered if his scholarship standing warrants it. The student must have a strong interest in science and medical service and should possess the personal qualities necessary for the exacting demands and high standards of medical laboratory work.

East Central Junior College opened its doors to a freshman class of twenty students for the first regular session in September of 1928. The college occupied buildings that were a part of the Newton County Agricultural High School, which had been organized in 1914. The Agricultural High School was located on property belonging to the Decatur Municipal School District, which had been created in 1912. The upper high school grades which comprised the Newton County Agricultural High School were a part of the college until 1958 when they joined the Decatur Attendance Center.

In March of 1939, East Central Junior College became a member of The Southern Association of Colleges and Secondary Schools. It now holds membership in The American Association of Junior Colleges, The Southern Association of Colleges and Secondary Schools, The Mississippi College Association, and The Mississippi Junior College Association.

More than thirty different major buildings worth approximately \$2,000,000 have been added to the original three buildings. The latest additions include air conditioned library and science buildings.

Originally this institution was supported by three counties— Newton, Neshoba and Scott. Later these were joined by Leake and Winston. To supplement the original plant, Newton County provided \$90,000 in 1930. In 1933-37 \$110,000 was spent on the plant of which Newton County provided \$44,000. Over a million dollars provided by the state and five supporting counties has been spent on the plant since 1946-47.

TWO YEAR PROGRAMS

Degree of Associate in Arts In:
Medical Laboratory Technology
Architectural Drafting Technology
Machine Design Technology
Civil Drafting Technology

MEDICAL LABORATORY TECHNOLOGY

EAST CENTRAL JUNIOR COLLEGE
DECATUR, MISSISSIPPI

Kinds Of Work

The duties of a Medical Laboratory Technologist are exacting and often varied in that the work consists of the performance of essential laboratory tests, the results of which are used in the diagnosis and treatment of disease.

The work involves the analysis of urine, blood, and other body fluids, the preparation of slides of tissues, and related procedures. Extensive training in laboratory technique is mandatory.

The Medical Laboratory Technologist will work under the supervision of a Clinical Pathologist or Registered Medical Technologist.

Employment Opportunities

Clinical laboratories are located in all of the hospitals in this area. There are also some private medical laboratories in this section. The opportunities for employment are excellent.

Some typical places where graduates of this program will be employed are as follows: hospital laboratories, research centers, medical service laboratories, and private physicians' laboratories.

Local hospitals have agreed to employ students in this program during the summer following the freshman year for experience and financial assistance.

Nature of the Program

The Medical Laboratory Technology curriculum includes courses in biology, anatomy, physiology, chemistry, serology, bacteriology, blood banking, materia medica, and clinical pathology. Several courses are included where active workers in the medical field are brought in for informal discussions and training sessions pertaining to the overall program. Actual experience and training in a hospital laboratory is required during the second year.

All students take a number of general education courses such as communications skills, human relations, health, psychology, economics, and sociology.

Emphasis is placed on the development of those personal characteristics and professional skills essential to the competent worker in the field of medical technical work.

An advisory committee of local physicians and technicians have assisted in the formation of the curriculum.

High School Subjects

A college entrance course in high school with above-average grades in mathematics, biology, and chemistry is a good preparation for this program. In the event some deficiencies in the science subjects occur, the student may be considered if his scholarship standing warrants it. The student must have a strong interest in science and medical service and should possess the personal qualities necessary for the exacting demands and high standards of medical laboratory work.

Careers in

DRAFTING AND DESIGN TECHNOLOGY

For Men and Women

The field of technology is a relatively new field, but its technicians comprise one of the most important labor forces in the United States.

The technician fills a strategic gap between the craftsman and the engineer and between theory and production. It is the technician who turns ideas into reality through his use of good judgement and initiative coupled with his knowledge of applied science, mathematics, and drawing instruments.

There is an unlimited number of opportunities in Architectural, Machine, and Civil Drafting fields for young men and women who are willing to follow the prescribed course of study and then apply their knowledge in industry.

Secretarial Science
Business Education

One-Year Business Course

East Central Junior College

Decatur, Mississippi

ONE-YEAR BUSINESS COURSE

Do You Want To Be

A Secretary, Typist, Office Clerk, Stenographer, Bookkeeper, File Clerk, Office Machine Operator, Receptionist, or to prepare yourself for one of the many other positions in the business field? You can get expert training at East Central Junior College for any of these positions.

Employment Opportunities

An organized placement service is maintained at the college. The demand for junior college trained people in the Business field is much greater than the supply. Our contacts with employers are extensive. You can feel assured of a job.

Nature of the Program

If you are interested in a one-year business course, you should know that East Central Junior College offers this training for students who wish to qualify themselves for immediate employment upon completion of the course.

The one-year course may be completed within 9 or 12 months depending upon previous high school training. A certificate is awarded upon completion of the program.

You would take subjects such as Shorthand, Typing, Accounting, Office Machines, Filing, Business English, and Secretarial Practice.

You would learn how to operate these office machines: Electric Typewriters, Posting, Ten-Key Adding, Duplicating, Transcribing, and Calculators.

Our courses carry full college credit, which is acceptable anywhere you might wish to attend college further. The cost of the training will be only from one-third to one-half of the cost in most schools. No laboratory fees are charged for any of the business subjects.

EAST CENTRAL JUNIOR COLLEGE
DECATUR, MISSISSIPPI

Business Staff

East Central's business faculty is fully qualified, each teacher having both a Master's Degree in Business Education and many years of teaching experience. They will give you both class instruction and individual attention.

Sociology
Speech Communication and Theater Arts
Wildlife, Fisheries and Marine Biology

Healthcare Education

Students who successfully complete Healthcare Education programs at the College are prepared to take state and national licensure/certification exams and obtain employment in their respective area. Those applying for admission to these programs must meet the general college requirements in addition to specific requirements for each individual program.

- Associate Degree Nursing
- LPN Bridge Program for ADN
- Emergency Medical Technician

- Paramedic
- Practical Nursing
- Surgical Technology

Workforce Education

Students who are looking to complete their education at East Central Community College will find one- and two-year career-ready degrees available in the many **Workforce Education** areas.

TECHNICAL PROGRAMS

- Automotive Technology
- Business & Office Technology
- Collision Repair Technology
- Computer Network Support Technology
- Culinary Arts Technology
- Drafting & Design Technology
- Early Childhood Education
- Electrical Technology
- Heating & Air Conditioning Technology
- Hotel/Restaurant Management Technology
- Precision Manufacturing & Machining Technology

CAREER PROGRAMS

- Residential Carpentry
- Cosmetology
- Cosmetology Teacher Training
- Welding & Cutting

Students who need a more flexible class schedule will find online courses offered through the Mississippi Virtual Community College. Students register through East Central Community College for classes available over the Internet. A complete course listing can be found at www.msvcc.org.

Steps to Become a Warrior

August 2015

We are glad you are interested in joining the EC family. East Central Community College will take you where you want to go! Summer courses begin in May and June 2015 and fall classes begin in August 2015. Here are the steps to prepare:

- Apply online: www.eccc.edu - click on the black link in the bottom right corner that says "Apply Online." Then scroll to mid-page and click on Fall 2015 Application for Admission.
- Have all OFFICIAL college and high school transcripts or GED documentation sent to the ECCC Admissions office – P.O. Box 129, Decatur, MS 39327. High School seniors – go ahead and have your partial transcript mailed and then send a completed one after graduation.
- Provide documentation of your ACT score to the Admissions office. To take the National ACT test, register at www.act.org. The ECCC ACT code is 2192. You may also opt to take the COMPASS assessments. Call Ms. Boulton at (601) 635-6346 or email mboulton@eccc.edu to reserve a seat. The cost is \$20. The ACT and COMPASS are used to "place" you into mathematics and English courses.
- For housing go to www.eccc.edu and click on Future Students, Housing, and then on the Housing Application Form. Print, complete, and mail it to the address on the form along with a \$60 deposit. You will receive a letter confirming your dormitory reservation. Contact Mrs. Kristi Smith at (601) 635-6213 or ksmith@eccc.edu for more information. Dormitory beds are provided on a first-come, first-served basis so apply early as we fill to capacity quickly! You MUST apply for admissions first (see #1 above).
- It is critical that you file for financial aid in the February-March 2015 time frame. The website is www.fafsa.gov. You will need a personal PIN number to complete this form so you must apply for a PIN with a valid email address. East Central's financial aid code is 002404. You will use your 2014 tax information for the fall-spring 2015-2016 college year. You MUST purchase textbooks out of pocket if your financial aid is not ready when classes begin. New students can use your 2013 tax information to apply for aid for summer courses.
- Mississippi residents may also qualify for the Mississippi Tuition Assistance Grant (MTAG). Go to http://www.mississippi.edu/riseupms/search-results.php?article_id=230 for more information.
- You will register for fall classes when you attend a Summer Orientation.
